Overview of the experience-

Who Should Attend? Perfect for forward-thinking teachers from primary and secondary phases ready to embrace creativity and curiosity. This event demonstrates how to guide young learners in navigating an uncertain future with confidence and purpose.

Why Attend?

Immerse yourself in experiential career learning.

Gain access to free resources to use back in your classroom and school.

Gain new perspectives on sustainable innovation.

Spark your own creativity and leave with tools to transform your teaching practice.

Adventure Awaits:

You've crash-landed on Solarpunk Island, a visionary utopia where humans and nature thrive in perfect harmony. As a team of stranded explorers, you'll have to collaborate, create, and innovate to rebuild from scratch. Together, we'll explore experiential project based learning in action, equipping you with skills and ideas to inspire your students to thrive in an ever-changing world.

What to Expect:

 **Creative Challenges:** Engage in hands-on activities where you'll design solutions for sustainable living and thriving on the island.

 **Survive and Thrive:** Work with fellow educators to solve real-world problems, learning strategies you can take back to your classroom.

 **Future-Ready Learning:** Discover how solarpunk principles—resilience, sustainability, and innovation—can shape young people's career pathways.

 **Collaborative Exploration:** Build connections with like-minded educators while experiencing a transformative learning approach firsthand.
